Professional Summary

Passionate and proactive Senior Java Developer with over 7 years of experience in designing, developing, and maintaining high-performance applications. Skilled in Java, Spring Boot, and RESTful web services with a strong background in database management using PostgreSQL and Oracle. Proven ability to work independently and collaboratively within a team, adept at multitasking, and capable of working under strict deadlines.

Skills

Programming Languages: Java, Python

Frameworks: Spring, Spring Boot

Web Services: RESTful, JSON, HTTP

Databases: PostgreSQL, Oracle

Version Control: Git

Testing: Junit, Mockito

DevOps: CI/CD (Jenkins), Docker, Kubernetes, OpenShift

Build Tools: Maven

Application Servers: Tomcat

Operating Systems: Linux

Frontend: Angular (basic, willing to learn more)

Professional Experience

Senior Java Developer

XYZ Corporation | City, Country | January 2018 – Present

Developed and maintained enterprise-level applications using Java, Spring Boot, and RESTful web services.

Collaborated with functional analysts and application managers to gather requirements and implement new functionalities.

Conducted unit and integration testing using Junit and Mockito to ensure code quality and reliability.

Deployed applications and managed version control using Git.

Implemented CI/CD pipelines using Jenkins to streamline the development process.

Worked with Docker and Kubernetes for containerization and orchestration of applications.

Managed database operations using PostgreSQL and Oracle.

Troubleshooted and resolved application bugs, ensuring minimal downtime and impact on end-users.

Actively participated in team meetings and code reviews, providing constructive feedback and suggestions for improvement.

Java Developer

ABC Tech Solutions | City, Country | June 2015 – December 2017

Designed and developed web applications using Java, Spring, and RESTful web services.

Created and maintained database schemas, ensuring data integrity and performance optimization.

Collaborated with cross-functional teams to deliver high-quality software solutions.

Implemented and executed unit tests to validate code functionality and performance.

Used Git for version control and managed application deployments on Tomcat servers.

Assisted in the setup and maintenance of CI/CD pipelines using Jenkins.

Provided support and troubleshooting for production issues, ensuring timely resolution.

Junior Java Developer

Tech Innovators | City, Country | January 2013 – May 2015

Assisted in the development of web applications using Java and Spring framework.
Participated in code reviews and contributed to the improvement of coding standards and practices.
Conducted unit testing and debugging of applications to ensure optimal performance.
Collaborated with senior developers to design and implement new features and functionalities.
Managed version control using Git and supported application deployment processes.

Education

Bachelor of Science in Computer Science
University of Technology | City, Country | Graduated: 2012

Certifications

Oracle Certified Professional, Java SE 8 Programmer
Spring Professional Certification
